Office Action Summary	Application No. 10/805,666	Applicant(s) GURVICH ET AL.	
	Examiner Henry K Choe	Art Unit 2817	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 1-3 are objected to because of the following informalities: in line 6 of claim 1, should "thee" be --the--? In line 4 of claim 2, should "and a first" be --and said first--? in line 4 of claim 3, should "a first phase" and "and a first" be --a second phase-- and --and said second-- respectively? Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Narahashi et al (Fig. 1).

Narahashi et al (Fig. 1) discloses an amplifier circuit comprising a main amplifier gain path (upper horizontal line) including an adjustable delay 9 which can be read as the claimed first group delay adjuster since the adjustable delay 9 is functionally same as the claimed first group delay adjuster, and an error amplifier gain path (lower horizontal line) including an adjustable delay 11 which can be read as the claimed second group delay adjuster since the adjustable delay 11 is functionally same as the claimed second group delay adjuster and wherein an output (output of 12) of the error

Art Unit: 2817

amplifier gain path (lower horizontal line) is coupled to an output (output of 7) of the main amplifier gain path (upper horizontal line).

Allowable Subject Matter

Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Patent numbers (6,664,869; 6,275,106) are the feedforward amplifiers with the delays.
